Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 3/5/04
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 7-18 is/are pending in the application.

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 3/5/2004 with regard to claims 7-14 have been fully considered but they are not persuasive.

With regard to the applicants' argument that "Butter is different from the applicants' claimed invention as recited in claim 7 at least because Butter does not disclose a motion estimation processor having a controller" (page 5, ln. 3-5), the examiner respectfully disagrees and would like to direct the applicants' attention to figure 8, motion estimation processing unit, element 331 and col. 3, ln. 35-49, which show that unit 331 controls unit 321.

With regard to the applicants' argument that "Butter does not disclose resolution processors analyzing development of a video signal in time and producing motion analysis", (page 5, ln. 14-16, 23-25, and page 6, ln. 6-8), the examiner respectfully disagrees. Col. 10, ln. 11-16 states "This unit (323) performs a refinement search for up to eight half pixel reference macroblocks (RMBS) which surround the best match full pixel reference macroblock (RMB) **as determined by** the full resolution (FR) unit 321." The examiner respectfully submits that this shows unit 321 does analyze and with respect to "development of video in time and producing motion analysis", it is submitted that since "the first motion estimation step performed occurs in the full resolution unit 321" (col. 8, ln. 61-62) implies "development of video in time" and the results of this process is considered "producing motion analysis". The examiner maintains all of his rejections for claims 7-14.

Art Unit: 2613

Allowable Subject Matter

Claims 15-18 are allowed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 7-9, 11, 13-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Butter et al (US 6,549,575) as set forth in the previous office action, paper #9.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Butter et al (US 6,549,575).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
